

89th Annual Kentucky State Fire School

***"Through the Years—Moving the
Kentucky Fire Service Forward"***

JUNE 7-10, 2018 | LEXINGTON, KENTUCKY

89th Annual Kentucky State Fire School

Conference-at-a-Glance

Tuesday, June 5, 2018

8:00 am – 5:00 pm	Fire Officer I	TBD
8:00 am – 5:00 pm	Emergency Vehicle Technician	Fire Commission Office

Wednesday, June 6, 2018

8:00 am – 5:00 pm	Fire Officer I	TBD
8:00 am – 5:00 pm	HazMat Technician	National Guard Armory
8:00 am – 5:00 pm	Aircraft Firefighting	Bluegrass Airport Training Cntr
8:00 am – 5:00 pm	Rope Rescue	Area 15 Office
8:00 am – 5:00 pm	Emergency Vehicle Technician	Fire Commission Office
3:00 pm – 7:00 pm	Registration	Heritage Registration Desk

Thursday, June 7, 2018

7:00 am – 5:00 pm	Registration	Heritage Registration Desk
8:00 am – 5:00 pm	Classes in Session	

Friday, June 8, 2018

7:00 am – 5:00 pm	Registration	Heritage Registration Desk
8:00 am – 5:00 pm	Classes in Session	
4:30 pm – 8:30 pm	Exhibits and Vendors	Heritage Hall
4:30 pm – 7:30 pm	Free Cookout	Heritage Hall
6:00 pm – 8:00 pm	Fire Truck Pull	Heritage Hall

Saturday, June 9, 2018

7:00 am – 5:00 pm	Registration	Heritage Registration Desk
8:00 am – 5:00 pm	Classes in Session	
10:00 am – 2:00 pm	Exhibits and Vendors	Heritage Hall
11:30 am – 1:30 pm	Free Cookout	Heritage Hall

Sunday, June 10, 2018

7:00 am – 4:00 pm	Registration	Heritage Registration Desk
7:30 am – 8:00 am	Worship Service	Heritage Hall
8:00 am – 5:00 pm	Classes in Session	

KCTCS does not discriminate based on race, color, religion, national origin, sex, disability, or age in its programs and activities. The following person has been designated to handle inquiries regarding nondiscrimination policies: Director of Diversity Programs, 300 North Main Street, Versailles, Kentucky 40383, phone 859-256-3100.

Hotel Accommodations

Rooms are blocked for "Kentucky State Fire School" and being held at the government rate.

Host Hotel:

*Hilton Lexington/Downtown
369 West Vine Street
(859) 231-9000 or (877) 539-1648
(Ask for group code KSFS18)*

The above hotel is the only downtown hotel with a block of rooms for State Fire School.

Overflow Hotel:

*Clarion Hotel/North
1950 Newtown Pike
(888-390-4918)
(Specify Kentucky Fire School when making reservations)*

Registration

Pre-registration is highly recommended. Register on-line at: <http://kyfirecommission.kctcs.edu/>

You may also send completed registration form(s) along with application fee(s) to:

***State Fire School
P.O. Box 700
Calhoun, KY 42327***

Register early to assure a spot in your first class choice. Registrations accepted until May 31, 2018. Classes without a significant number of students pre-registered on this date may be cancelled. After May 31 you may only register on-site at the school.

Lead Instructors

All lead instructors are required to check in prior to the start of class to obtain instructor packets and receive final instructions for completion of administrative forms. Check in will be located at the Logistics area across the lobby from Registration.

You do not have to be a registered student or conference attendee to participate in the Exhibit and Vendor Showcase or the Fire Truck Pull activities. We strongly encourage emergency service personnel to patronize and purchase from our loyal and dedicated exhibitors!

Fees

*Pre-registration \$60 (until May 15th)
Late or on-site registration \$75 (after May 15th)
Some courses have additional course fees*

*Friday Exhibit Show & Dinner Cookout FREE!
Saturday Exhibit Show & Lunch Cookout FREE!*

On-site registration will be located on the ground floor (Level 1) of the Lexington Convention Center in the "Heritage Hall" Registration area. The Lexington Convention Center is part of the Rupp Arena complex and is directly across the street from the Hilton Lexington/Downtown Hotel and Conference Center. See "Conference-at-a-Glance" for on-site registration dates and times.

All students must check in at registration to confirm seat in classes and receive other essential conference information including classroom locations. Travel to off-site locations is the responsibility of the student; transportation will not be provided.

Exhibits

The Exhibit and Vendor Showcase is the largest display of emergency service equipment, supplies, and services in Kentucky. Exhibitors come from several states showing everything from collectibles to fire apparatus. We appreciate the continued support of our vendors and exhibitors. State Fire School would not be successful if not for the devoted following of these loyal friends. The two free cookouts will be held in conjunction with the vendors, so please take advantage of this opportunity to visit and get any questions answered at a face-to-face meeting. Also, please keep these vendors at the top of your list when it comes to purchasing apparatus and equipment for your department or organization!

101 Airport Firefighting with Optional IFSAC Accredited Testing

The NFPA 1003 Standard for Airport Firefighter Professional Qualifications identifies the minimum requirements for a firefighter who has demonstrated the knowledge and ability to perform with responsibilities in aircraft rescue and firefighting. The purpose of this program is to identify experienced fire service personnel who demonstrate competency in the performance requirements necessary to perform the duties of an Airport firefighter. A person certified at the Airport Firefighter level will have demonstrated competency in the necessary knowledge and skills to function as a firefighter at an airport facility. Fundamental aircraft firefighting techniques, use of Proximity Protective Personal Equipment (PrPPE), civil and military aircraft construction, critical components, hazards and systems, oxygen-enriched atmospheres, aircraft egress and ingress, aircraft fuels, crash scenes and critical stress management will be covered.

CERTIFICATION PROCESS

An attempt at IFSAC accredited certification is available, but not required, the last day of class. Candidates will submit a completed application to the Kentucky Fire Commission. The candidate shall remit the prescribed written test sitting fee of \$25, payable by department check or money order. They will attempt a written examination of 100 multiple choice, true/false, or matching questions and participate in a skills examination. Upon successful completion of the written and skills exams, provided all documentation and fees are submitted, and prerequisites are satisfied, the candidate shall become eligible to receive an accredited certification from the Kentucky Fire Commission.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of subjects listed on the Live Fire Course Competency Validation form. This form must be mailed in with payment. To certify at this level (if you choose), you must already possess IFSAC Accredited Firefighter I and II certification and associated pre-requisites. Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic test date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

This course will be located off-site.

This 5-day course will be offered Wednesday-Sunday with skills testing available on Sunday.

Lead Instructor: Carl Faulconer, Bluegrass Airport Fire Training Center

102 “The First Line” Engine Company Operations

“The First Line” Engine Company Operations will allow the firefighter to learn “Hands-On” fire hose operation techniques and advancing skills during live fire scenarios using the Fire Blast Trailers, car fire burn props, and other propane burn props. This course will offer a great training opportunity for the new firefighter that has not yet had a chance to work a fire at these type of incidents, or for the firefighter seeking to polish their skills and learn new techniques for hose/nozzles during live fire scenarios.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of subjects listed on the Live Fire Course Competency Validation form. This form must be mailed in with payment. Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic test date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

This 4-day course will be offered Thursday-Sunday.

Co-Instructor: Marty Kazsuk, State Fire Rescue Training Area 14

Co-Instructor: Danny Eades, State Fire Rescue Training Area 15

103 Pumper Operations and Theory

Pumper Operations and Theory will allow the firefighter to learn competency in the performance requirements necessary to perform the duties of a pumper operator. Basic preventive maintenance, pump operation, hydraulic calculations, relay pumping, and pump testing will be covered. Students will execute these skills through hands on training involving a front-line pumper as well as a pump panel simulator.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE except for SCBA is required.

This course will be located off-site.

This 3-day course will be offered Friday-Sunday.

Co-Instructor: Dennis Swartz, State Fire Rescue Training, Area 9

Co-Instructor: Rick Ratliff, State Fire Rescue Training, Area 11

104 Truck Company Operations

This class will be full “hands-on” and the student will be challenged on many different tasks. Forcible entry, roof ventilation, search, VES (Vent Enter Search), interior operations, ground ladder placement and uses, tool familiarization and maintenance, just to name a few. They will be taught how these operations assist with scene stabilization. The cadre of instructors will bring many years of knowledge and experience to pass on to the students, in which the student can return to their department and pass on the information. This Hands-On Training course is EXTREMELY demanding both mentally and physically.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE & SCBA with a spare cylinder is required.

This course will be located off-site.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Arthur Ashley, Lexington Division of Fire and Emergency Services

105 “Fire Ready” Mini Academy

“Fire Ready” is a course that will cover each required topic set forth by the 2017 Edition of NFPA 1403 Live Fire Training. NFPA 1403 requires students to have knowledge of these topics to participate in Live Fire exercises. If you are wanting to participate in Live Fire exercises then this is the course for you. The course will include classroom lectures and hands on skill settings, ranging from basic fire firefighter training to Live Fire scenarios. This course is not just for the “Newest Guy” on the department, but an excellent refresher for seasoned members as well.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

Lunch will be available to purchase on-site for \$6 per person per day.

This course will be off-site.

This 4-day course will be offered Thursday-Sunday. Class is limited to first 30 students.

Lead Instructor: Joseph Sexton, State Fire Rescue Training Area 15

106 Rapid Intervention Team

This advanced four-day class is designed for the experienced firefighter who wants to expand their knowledge, skills, and performance during RIT operations. The RIT classroom portion consists of various topics focusing on theory, preventative RIT operations, thermal imaging, and basic equipment utilized in RIT operations. This Hands-On Training course is EXTREMELY demanding both mentally and physically. HOT evolutions reinforce and develop the skills of firefighter survival and rescue, mayday procedures, and RIT operations. Training will conclude with increasingly difficult scenarios utilizing basic skills and tools.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of subjects listed on the Live Fire Course Competency Validation form. This form must be mailed in with payment. Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA bottles within hydrostatic date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

This course will be held off-site.

This 4-day course will be offered Thursday-Sunday. Class is limited to first 25 students.

Lead Instructor: Dustin Whited, Lexington Division of Fire and Emergency Services

107 Advanced Auto Extrication

Auto Extrication is a skill built over years of classes and genuine experience. This class is designed for the one that is the Incident Commander's "go to" on a technical auto extrication. The instructors will take the student well past the basic door "pop". A variety of Operations and Technician level skills and knowledge will be incorporated. The instructors will use references relevant to NFPA 1001, 1006, and 1670. Modern vehicle safety systems and design will be discussed extensively during the class. Classroom lecture, technique demonstrations, and real-world scenarios will be included in the class. Due to the rapid pace and level of instruction for the course, it will be closed to those inexperienced in auto extrication.

PRE-REQUISITES/EQUIPMENT NEEDED

IFSAC Accredited FF 2 certification (must provide proof) or skill exam using the accredited certification IFSAC FF 2 skill sheets on Thursday. <http://kyffcert.com/id29.html>

Safety equipment required for this course includes: Full PPE including helmet, gloves, eye protection, steel-toed boots, and extrication suit/turnout gear.

This 4-day course will be offered Thursday-Sunday. Class is limited to first 20 students.

Lead Instructor: Steve Barton, State Fire Rescue Training Area 13

**Be sure to join us Friday evening
For the 3rd Annual Fire Truck Pull.
6:00 – 8:00 pm at the
Exhibit Showcase in Heritage Hall.
Come cheer on the teams and
Check out our Vendors!!!!!!**

108 Heavy Vehicle Rescue

This intensive 3-day course will utilize a classroom portion as well as practical evolutions on heavy vehicles. Students will be instructed in the most effective heavy rescue techniques which have been designed with the safety of both the rescuer and the victim in mind. Included will be information and evolutions on incidents involving both light and heavy vehicles.

PRE-REQUISITES/EQUIPMENT NEEDED

One year of service and a working knowledge of rescue tools. Safety equipment required for this course includes: helmet, eye protection, extrication jumpsuit/turnout gear, gloves, and boots.

This 3-day course will be offered Thursday-Saturday. Class is limited to first 25 students.

Special thanks to Roberts Heavy-Duty Towing and Recovery for their continued support of this course!

Lead Instructor: Matthew Haddle, State Fire Rescue Training Area 5

109 EMT Refresher/Continuing Education

This course meets the EMT minimum continuing education requirements required by administrative regulation 202 KAR 7:301. EMT, Section 3; Recertification and Continuing Education Requirements for KBEMS EMT recertification. This course also satisfies the twenty (20) hours necessary to meet the national component for NREMT National Continued Competency Program (NCCP) for NREMT EMT-Basic recertification. It also provides an additional ten (10) hours of training that may satisfy the state or individual components of the NCCP.

The following subjects will be covered during this course: Airway/Respiration/Ventilation – 1.5 hours; Cardiovascular – 6 hours; Trauma – 1.5 hours; Medical – 6 hours; Operations – 5 hours; Flexible content – 10 hours.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Gary Hall, State Fire Rescue Training Area 13

110 Junior Firefighter

This class will provide an opportunity for the Junior Firefighters in the Commonwealth to participate in State Fire School. Junior Firefighters ages 15 and older, affiliated with a Fire Commission-approved Junior Firefighter Program, may attend and participate in this program. This course will include classroom and hands-on activities led by State Fire Rescue Training instructors.

PRE-REQUISITES/EQUIPMENT NEEDED

Every Junior Firefighter must bring their required Training and Emergency Contact Form signed by the Fire Chief of their department. Participants also should bring their turnout gear and SCBA to participate in the hands-on activities.

This 3-day course will be offered Friday-Sunday. Class is limited to the first 25 students.

Lead Instructor: Troy Perry, State Fire Rescue Training Area 13

111 Urban Search and Rescue Lifting and Moving

This class will present the student with advanced skills for the lifting and moving of heavy objects during rescue operations. Students will learn how to calculate the weight of objects and then how to lift and move those objects weighing in the thousands of pounds around an "O" course. The student will work with air bags, cribbing, pry bars, mechanical advantage systems, rollers, shims, concrete anchors, grip hoists, A-frame/Bi-pods, and other commonly carried rescue equipment.

This class is a wonderful team builder, as there is simply no way to move thousands of pounds of concrete without the cooperation and strength of a unified team. It will also enhance a team's performance and add a level of excitement similar to that experienced in real-life emergencies.

PRE-REQUISITES/EQUIPMENT NEEDED

One year of service and working knowledge of rescue tools. Safety equipment required for this course includes: helmet, eye protection, pants and long sleeved shirt, gloves, and steel-toed boots.

This 3-day course will be offered Friday-Sunday. Class is limited to the first 20 students.

Lead Instructor: Wes Gilliam, State Fire Rescue Training Area 10

112 Hazardous Materials Awareness and Operations

These courses are to provide first responders with the information they need to take appropriate initial action when hazardous material incidents are encountered. Hazardous Material Awareness provides information to first responders to recognize the presence of hazardous materials, protect themselves, call for help, and deny entry to area. Hazardous Materials Operations provides information for first responders to recognize the presence of hazardous materials, respond in a defensive mode to control the release and spread of the product, thereby protecting nearby persons, the environment and property. The Operations course will include practical exercises.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE is required including SCBA and a spare cylinder (for Operations class).

This course will be held off-site.

Hazardous Materials Awareness (8 hours) will be offered on Thursday.

Hazardous Material Operations (24 hours) will be offered Friday-Sunday.

Lead Instructor: Chris Spaulding, State Fire Rescue Training Area 6

113 Hazardous Materials Technician

This course will provide the student with the knowledge and skills as outlined in NFPA 472/1072. This is a 40-hour course that will provide the student with specific response knowledge and skills, including hands-on training in donning, doffing, and selection of chemical protective clothing, containing leaks and spills in non-pressurized and pressurized containers, damage assessment, and performing various levels of decontamination. There will also be a segment on scene management. The course wraps-up on day five with a practical evolution, where the students will apply the knowledge and skills learned. Students must successfully complete all classroom and skills requirements to receive a certificate of completion at the conclusion of the course.

PRE-REQUISITES/EQUIPMENT NEEDED

Students must have completed Hazardous Materials Awareness and Operations Level training (certificates must be presented for proof). Participants must bring full PPE and SCBA with spare cylinder.

This course will be held off-site.

This 5-day course will be offered Wednesday-Sunday. Class is limited to the first 25 students.

Lead Instructor: Eric Duffy, State Fire Rescue Training Area 6

New For 2018:

Kids Korner

Located in the Exhibit Showcase!

***Puppet Show
Coloring Stations
Petting Zoo
And much more!***

114 Rope Rescue Technician

This class will start at the beginning and will cover Basic, Intermediate and Advanced rope rescue techniques as required to meet NFPA 1006. Students should be physically capable of performing and demonstrating the skills required for meeting NFPA 1006 and capable of working in the low and high angle environment.

PRE-REQUISITES/EQUIPMENT NEEDED

Students will need leather form fitting/snug gloves, leather lace-up boots, and a rescue or fire helmet with chin strap. Personal gear may be used but must pass instructor inspection.

This course will be held off-site.

This 5-day course will be offered Wednesday-Sunday. Class is limited to the first 25 students.

Lead Instructor: Bart Powell, State Fire Rescue Training Area 15

115 Trench Rescue Operations

This course is designed to offer a combination of classroom and practical evolutions that allow the student to learn proper techniques to make open trenches safe for victim access and removal. This class is made realistic by actual sheeting and shoring operations of "unsafe" trenches with shoring equipment as well as developing skills in lifting practices within the trench environment. Students will be operating in straight trenches less than 8 feet deep. Students will learn awareness and operations level skills addressed in NFPA 1670.

PRE-REQUISITES/EQUIPMENT NEEDED

As per NFPA 1006/NFPA 1670, a student should have: Rope Rescue – Operations, Confined Space Rescue – Operations, Hazardous Materials – Awareness. Students will also need to bring a rescue helmet, eye protection, extrication coveralls/turnout gear, gloves, and steel-toed boots.

This course will be held off-site.

This 4-day course will be offered Thursday-Sunday. Class is limited to the first 25 students.

Lead Instructor: Marc Myres, State Fire Rescue Training Area 6

201 Fire Officer I

This course is designed to prepare students to successfully complete certification as Fire Officer I. This course is based on the content in IFSTA Fire and Emergency Services Company Officer 5th Edition. The course meets or exceeds NFPA 1021 Fire Officer I Standard for Professional Qualifications, 2014 edition. The target audience includes current company officers, acting company officers, and firefighters preparing for promotion to company officer. By completing all of the lessons, the student should be prepared for the Fire Officer I certification process. Students will have skill evaluation sheets, quizzes, and tests throughout the class prior to certification testing.

CERTIFICATION PROCESS

An attempt at IFSAC certification is available the last day of class. Candidates will submit a completed application to the Kentucky Fire Commission. The candidate shall remit the prescribed written test sitting fee of \$25, payable by fire department check or money order. They will attempt a written examination of 100 multiple choice, true/false or matching questions and participate in skills examination. Upon successful completion of the written and skills exams, provided all documentation and fees are submitted, and prerequisites are satisfied, the candidate shall become eligible to receive an accredited certification from the Kentucky Fire Commission.

PRE-REQUISITES/EQUIPMENT NEEDED

All class participants will need to bring a laptop. All students will need to purchase IFSTA Fire and Emergency Services Company Officer 5th Edition textbook prior to the class starting. It is highly encouraged that the students also purchase the study guide that goes along with the textbook. The study guide will help prepare the student for the certification testing. To certify at this level, you must already possess: IFSAC Accredited Firefighter I and II certification and associated pre-requisites; and IFSAC Accredited Fire Instructor I certification and associated pre-requisites.

This 6-day course will be offered Tuesday-Sunday. This class is limited to the first 30 students (minimum of 18 to conduct class).

Co-Instructor: Richard Cyrus, State Fire Rescue Training Area 10

Co-Instructor: Larrel Alley, State Fire Rescue Training Area 9

Co-Instructor: Gary Clarke, State Fire Rescue Training Area 9

Co-Instructor: Jeremy Rodgers, State Fire Rescue Training Area 9

202 New Fire Chief II: Administrative Issues

The goal of this National Fire Academy course is to provide an awareness of the managerial, administrative, and leadership skills necessary for new or recently appointed or elected fire chiefs to effectively meet their obligations. This course addresses critical knowledge and skills pertaining to the responsibilities of a fire chief; the nature of local politics and the fire chief's role in local politics; and liability and risk management issues and resources available to help the new fire chief. The primary audience for this course is the new fire chief in a volunteer, combination, or career department setting, but other chief officers may gain from information presented.

This 2-day course will be offered Thursday-Friday.

Lead Instructor: Terry Wattenbarger, State Fire Rescue Training Area 13

203 Exercising Leadership Through Difficult Conversations

The purpose/goal of this executive skill series National Fire Academy course is to provide knowledge and skills related to conducting difficult conversations, so that these can be applied when it becomes necessary to address adaptive challenges in a leadership role. The target audience is fire and emergency services personnel in positions of authority who have an opportunity to exercise leadership. Students should, minimally, be assigned to a supervisory position, e.g., Company Officer.

This 2-day course will be offered Saturday-Sunday.

Lead Instructor: Kevin Baker, State Fire Rescue Training Area 6

204 Command and Control

This class offers a solid review of the tools to get you started commanding a scene using the acronyms SAW, CSS, RECEO, and VSS while using the NFA Primary Size up chart. Day One is an ICS-Command/Control lecture with several breakout tabletop exercises using the Tactics and Strategy Fundamentals. The following days will consist of working in the “CommandSim” interactive software designed for fire ground scenarios where each person will rotate from computer to computer to change on-scene roles. “CommandSim” is an invaluable tool that will allow us to train in a dynamic, real-time environment which can only be replicated with actual fire ground experience.

PRE-REQUISITES/EQUIPMENT NEEDED

Students are encouraged to bring a laptop computer to class.

This 3-day course will be offered Friday-Sunday.

Lead Instructor: Nick Russell, State Fire Rescue Training Area 7

205 Training Operations in Small Departments

This National Fire Academy course is designed to provide the student with the essential tools and skills to lead and manage a training program in a small department, with the goal of applying a leadership philosophy to the training function. Topics covered include: leadership, meeting legal requirements, assessing training needs, providing budget input, and program delivery/evaluations. The target audience includes individuals currently responsible for the overall administration, management, and supervision/coordination of training functions in a small department.

This 2-day course will be offered Saturday-Sunday.

Lead Instructor: State Fire Rescue Training Instructional Staff

300 Fire Investigation and Public Education

301 Fire Investigation for First Responders (Arson I)

This is the updated National Fire Academy course, "Fire Investigations for First Responders." The purpose of this course is to provide first responders with the tools to understand the key role they play in fire scene examination and in preserving and protecting important evidence for any subsequent investigation. The content of the course will provide a clear definition of the role of the first responder in arson detection and provide essential knowledge to enable him or her to recognize the potential of intentionally set fires, preservation and protection of evidence, and proper reporting of information to appropriate officials. This course satisfies the requirement for the FRS 2074 in the KCTCS Fire/Rescue Science Associate Degree Program.

This 3-day course will be offered Thursday-Saturday. Class is limited to the first 40 students.

Lead Instructor: Rusty Todd, State Fire Rescue Training Area 5

302 Fire Scene Investigations (Arson II)

This is a comprehensive course with emphasis on techniques to determine the origin and cause of fires. Actual case scenarios will be incorporated to enhance this class. A wide variety of expertise is brought together through the cooperation of local, state, federal, fire, police and private investigators to provide the student with excellent instruction and detail. (Students will need full protective turnout gear).

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of an acceptable Arson I course. You must have a signed permission form or letter from your chief prior to attending fire investigation courses taught by the Kentucky Chapter IAAI. For further information contact Rusty Todd at russelle.todd@kctcs.edu.

This 3-day course will be offered Thursday-Saturday. Class is limited to the first 40 students.

Lead Instructor: Jim Kanavy, Kentucky Chapter International Association of Arson Investigators

303 Legal Issues for Fire Investigations (Arson III)

This course is the final and concluding level in arson investigations. This course emphasizes legal aspects, case preparations, trial procedures, and criminal enforcement. A mock trial is planned for Saturday morning, incorporating the Arson II class.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of an acceptable Arson I course and Fire Scene Investigations course (Arson II). These classes must be sanctioned by the Kentucky Chapter IAAI. A certificate or documentation must be provided at registration.

This 3-day course will be offered Thursday-Saturday. Class is limited to the first 30 students.

Lead Instructor: Assistant County Attorney Paul Richwalsky, Jefferson County Attorney's Office

400 KY State Fire Marshal Courses

401 Fire Company Inspections

This course is the first part of the Kentucky State Fire Marshal's Fire Inspector Program. This program will educate students on the new fire inspection program and the basics of being able to identify potential fire code issues as you conduct your company inspections. Students are encouraged to bring a tablet computer or laptop and calculator.

This 1-day course will be offered Thursday.

Co-Instructor: Calvin Crupper, State Fire Marshal's Office

Co-Instructor: Tim Juett, State Fire Marshal's Office

402 Continuing Education for Fire Suppression System Inspectors

This class will satisfy the requirements for the six (6) hours of continuing education for fire suppression sprinkler inspectors licensed by Department of Housing, Buildings and Construction in the state of Kentucky. The class will cover NFPA 25 for the inspection of water-based suppression systems.

This 1-day course will be offered Thursday.

Lead Instructor: Richard Peddicord, State Fire Marshal's Office

403 Continuing Education for Fire Alarm Inspectors

This class is developed and presented for the industry professionals that are required to attend and receive recertification credit for licensure. It will help the students have a deeper understanding of fire alarm systems. Class will have discussions as to where they are required, installed and maintained, proper inspection of the systems, how they function, how they help save lives, and how they may benefit the fire service. This class qualifies for the six (6) hours continuing education required for State Certified Fire Alarm Inspectors.

This 1-day course will be offered Friday.

Lead Instructor: Richard Peddicord, State Fire Marshal's Office

404 Fire Inspector I

This class is the second step in the Fire Marshal's revised Inspector Certification program. This class is designed for fire professionals that perform fire prevention inspections on a daily basis. This class will provide instruction on the 2012 fire codes. Prior knowledge of dealing with inspections is required. This class will consist of two days of instruction followed by an exam. Students are encouraged to bring a tablet computer or laptop and calculator.

PRE-REQUISITES/EQUIPMENT NEEDED

Pre-requisite for this class is Fire Company Inspections.

This 2-day course will be offered Friday-Saturday.

Lead Instructor: Calvin Crupper, State Fire Marshal's Office

405 Fire Inspector II

This class is the third step in the Fire Marshal's revised Inspector Certification program. This class is designed for the fire inspectors and building code officials that deal with life safety issues on a daily basis. The students will get detailed instruction on occupancy requirements and occupant loads. This class will consist of instruction followed by an exam. Students are encouraged to bring a tablet computer or laptop and calculator.

PRE-REQUISITES/EQUIPMENT NEEDED

Pre-requisite for this class is Fire Inspector I certification.

This 2-day course will be offered Friday-Saturday.

Co-Instructor: Calvin Crupper, State Fire Marshal's Office

Co-Instructor: Tim Juett, State Fire Marshal's Office

406 Cause and Origin for Chief Officers

This course is designed to provide a clear definition of the Fire Official's role in origin and cause investigations. Course topics will include: scene preservation and protection, request for assistance from the Fire Marshal's Office, KRS-KAR, reports and scene documentation. By strengthening the partnership between first responders, the State Fire Marshal and KSP arson investigators, the chances for successfully determining origin and cause will increase.

This 1-day course will be offered Sunday.

Lead Instructor: Michael Burke, State Fire Marshal's Office

Special Thanks to Buford Hurley, David Greenlee, Frank Handshoe, Kent Parrish, Lexington FD, and Louisville FD for allowing us to use their photographs. We also wish to thank the many individual fire departments that provided us with photos of their vintage apparatus for the collage on the back cover.

500 Seminars

501 Hybrid Vehicle

In response to the growing number of alternate vehicles available on the US market, firefighters need to be aware of changes in vehicle responses. The “Electric Vehicle Safety for Emergency Responders” class is designed to prepare the first responder to operate safely at incidents involving hybrid electric (HEV), plug-in hybrid electric (PHEV) and electric vehicles (EV). With the cooperation of Toyota, we expect to secure a vehicle for inspection and observation during the class.

This 1-day course will be offered Saturday.

Lead Instructor: Mark Boaz, State Fire Rescue Training Area 2

502 Emergency Vehicle Technician (EVT)

The fire service industry deserves the best when it comes to the maintenance of the equipment they depend on. This course will help Emergency Vehicle Mechanics achieve their EVT Certifications. This 3 ½ day class will cover the objectives and reference materials based on the requirements of the EVT commission including: Definitions and Terms, Basic Principles of Electricity, Out of Service Criteria, Basic Principles of Component Function & Application, Batteries, Starting and Charging Systems, Annual Testing Requirements of the Electrical System, Reading and Interpretation of Electrical Schematics, and Vehicle Computer Controls. Testing will take place at the conclusion of the classes. **All test registration must be completed through the Emergency Vehicle Technician Certification Commission Inc. (EVTCC.org)**

The class covers EVT F-4 Fire Apparatus Electrical Systems, and E-2 Ambulance Electrical Systems.

SPECIAL INSTRUCTIONS:

Additional course fees apply for this class **(in addition to State Fire School Registration Fee)** and are as follows:

\$175.00	Additional course fee	*Includes training materials
\$ 60.00	State Fire School Pre-registration (until May 15)	
\$235.00	Total cost (Course fee and Pre-registration fee)	

Testing Fees for this class **(separate from State Fire School Registration and EVT Course Fee)** are as follows:

EVT F-4 Test	\$60.00
EVT E-2 Test	\$60.00

All EVT Test fees are paid directly to EVTCC. Students must pre-register for the test by May 18, 2018 by visiting <http://www.evtcc.org>.

Online registration will not be permitted for this course. Contact Jimmy VanCleve, SFRT Area 3, at 270-273-3187. Payment information will be provided that will include check or credit card.

This course will be held off-site.

This 4-day course will be offered Tuesday-Friday.

Lead Instructor: Ken Stevens, Emergency Vehicle Technical Support

503 EMS Educator & Evaluator Course

This course is required by administrative regulation 202 KAR 7:601 – training, education, and continuing education – in order to be credentialed by KBEMS as an EMS Educator and/or EMS Evaluator. During the educator/evaluator course, the participant will learn all pertinent EMS regulations related to EMS education, the National Registry of EMT's certification and testing requirements, and how to select and submit required KBEMS documents related to education and certification.

This 1-day course will be offered Thursday.

Lead Instructor: Paula Coyle, Kentucky Board of Emergency Medical Services

504 Fire Department Planning and Response for Weather Emergencies

Fire departments today do much more than just respond to fires. The fire service has an increasing role as an all-hazard response agency. Each year, Kentucky experiences a wide variety of weather phenomena which ultimately leads to responses from the local fire department and other public safety agencies. The course will include information about some of the more common weather phenomena historically experienced in Kentucky, how to pre-plan for it, ways to anticipate its arrival, and discuss ways to improve fire department response in its aftermath. This course meets all requirements for FRS 1027, Emergency/Disaster Planning.

This 1-day course will be offered Sunday.

Lead Instructor: Casey Hall, Kentucky Fire Commission

505 Traffic Incident Management

The Federal Highway Administration (FHWA) is offering the first national, multi-disciplinary Traffic Incident Management (TIM) process and training program. This unique training for first responders promotes a shared understanding of the requirements for safe, quick clearance at traffic incident scenes; prompt, reliable and open communications; and motorist and responder safeguards. Governors, transportation leaders, and incident response agencies across the country can save lives, time, and money by promoting the full-scale deployment of the innovative TIM training program. Using a multiple discipline perspective, first responders within states, regions, and localities learn how to operate more efficiently and collectively. We will cover recommended TIM procedures and techniques. For example, first responders learn how the placement of response vehicles and traffic control devices can either aid or impede responder and motorist safety and impact how quickly traffic flow can be restored.

This 1-day course will be offered Saturday.

Lead Instructor: Greg Reams, State Fire Rescue Training Area 12

506 Grant Writing for Fire Departments

This course will provide an introduction to grants and the grant process. There will be discussion on various types of available grants, statistics and information for the current federal grant cycle. The instructor has been successful in obtaining several grants as well as participating in multiple grant reviews for Homeland Security and FEMA.

This 1-day course will be offered Sunday.

Lead Instructor: Derrick Hall, State Fire Rescue Training Area 12

507 Integrated Response with Tactical Teams

This course will instruct the participant the factors to consider when called to conduct joint operations with law enforcement. Areas to be discussed include support to tactical teams, rescue task forces, specialized equipment, case studies, arming first responders, and simulated scenarios. The participant will be able to make informed judgement regarding training equipment and operations in order to make better decisions and safely support law enforcement operations.

This 1-day course will be offered Friday.

Co-Instructor: Mike Poynter, Kentucky Board of Emergency Medical Services

Co-Instructor: Scott Barker, Federal Bureau of Investigation (Ret.)

508 Illicit Lab Awareness/Violence Intervention by Prevention for Emergency Responders (VIPER)

Firefighters and other emergency responders routinely deal with customers who may be manufacturing, illegally storing, or improperly disposing of methamphetamine producing products. This course will look into the methods and ingredients used in the illegal manufacturing of the most common illicit drugs. The recognition of common household products and the chemicals used in manufacturing will be demonstrated. Topics of responder safety, criminal apprehension, evidence preservation, and the proper disposal of the hazardous waste accumulated will also be discussed.

The Violence Intervention by Prevention for Emergency Responders Program was developed to assist first responder professionals in dealing with on-scene violence. Upon extensive research, the past ten years have shown a steady increase in violent acts carried out against emergency responders. These violent acts consist of everything from verbal threats to murder. Society has changed, life-styles shift, and you end up witnessing and sometimes experiencing more violent situations. How can you deal with this danger? The VIPER Training Program is designed to increase the awareness level of you, the emergency responder. With awareness, the participant will have more knowledge to carry with them to that emergency scene and hopefully prevent any violence from occurring

This 1-day combined course will be offered Sunday.

Co-Instructor: Mark Boaz, State Fire Rescue Training Area 2

Co-Instructor: Jerry Aders, Greenville Fire Department

509 The Silent Mayday & Cancer Awareness & Prevention

The fire service has long been about helping others; these days more than ever, that includes your fellow brothers and sisters. This course will combine two very important topics firefighters currently face: suicide prevention and cancer prevention.

The Silent Mayday is a Strategy and Tactics Course for Fire Service Suicide Intervention & Prevention. This class will discuss suicide prevention, awareness training and intervention techniques for use among First Responder personnel and their families. You will come away with the ability to understand the stress, pressure, and culture in fire service that can lead to suicidal ideation. Develop strategies to train fire service personnel in suicide prevention. Recognize the importance of establishing department policy and procedures related to suicide prevention and post reaction. Convey the importance of all of the above during future fire service suicide prevention training. Identify suicidal behaviors and communication. Understand, identify, prevent, & limit effects of Post-Traumatic Stress Disorder (PTSD). Significant others/family encouraged to attend.

Part II of this class involves increasing awareness of cancer and the epidemic it is rapidly becoming for firefighters. Each day more firefighters are diagnosed with cancer and clear evidence has linked cancer and the fire service. This portion of the course will highlight the aforementioned link, current actions that increase the risk of contracting cancer, limitations of PPE against carcinogen exposure, and preventative measures to decrease the risk of contracting cancer.

This 1-day course will be offered Saturday.

Lead Instructor: Chris Miller, State Fire Rescue Training Area 7

510 Fire Service Integration of Homeland Security (HSIN)

Is your fire department “FULLY INVOLVED?” Fire Departments are a critical part of our nation’s infrastructure. Information sharing is another tool used across the nation to keep our firefighters safe! Firefighters are often first to arrive on an incident scene, allowed into industry for the purpose of preplanning, and spend countless hours conducting home inspections. These actions could result in observing suspicious or criminal activity. Suspicious activity, whether occurring in rural or urban settings, can be the key to identifying criminal and terrorist plots being developed on a local, state, or national scale. Providing for the safety of your citizens and firefighters is a top priority of every fire service manager.

This class identifies trends and behaviors of individuals or groups associated with terrorist or criminal organizations, details the capabilities of the KY Intelligence Fusion Center (KIFC) and identifies recommended actions and guidance to effectively report suspicious activity to the KIFC. You will also learn methods in which information from the KIFC will be provided to your fire department.

This 1-day course will be offered Friday.

Lead Instructor: Lindsey Hix, Kentucky Office of Homeland Security

511 Basic Chaplaincy

The Basic Fire Chaplain Training course includes course material designed to introduce the fire chaplain to ministry in the fire service. Topics include: Ministry to Firefighters, Ministry to Fire Victims, Critical Incident Stress, Fire Department Funerals, Fire Chaplain Operations, and many others. On Saturday, a voluntary class trip to support rehab operations will be offered.

This 2-day course will be offered Thursday-Friday.

Lead Instructor: Cecil Tatum, Lexington Division of Fire and Emergency Services

512 On-Scene Safety for Utility Emergencies

This course is designed to be a First Responder Safety Awareness tool and to provide a basic understanding of the skills needed to identify and evaluate emergency on scene utility hazards. Topics will include: understanding the properties of natural gas, the natural gas system and how it works, how to approach a natural gas fire, and responding to various types of natural gas emergencies such as: gas leaking outside, gas burning outside, gas leaking inside and gas burning inside. A hands-on natural gas fire school will be available on site after the classroom presentation. There will also be an electric safety awareness component, covering topics of wire downs, MVA's and the broken pole, severe storms, working structure fires and pulling meters. There will be a "High Voltage Safety Demonstration" at the end of the classroom presentation.

This 1-day course will be offered Thursday.

Lead Instructor: Joe Welsh, Louisville Gas & Electric/Kentucky Utilities

513 Response to Mercury Spills

Inhalation of mercury vapor can produce harmful effects on several of the body's systems. Therefore, proper response to a hazard of this type is vital to maintain the safety of first responders. This course will cover the hazards and proper response to a Mercury release. Specific details for a Mercury response within the Commonwealth will be covered by the Response Coordinator for the Kentucky Department of Environmental Protection.

This will be a 2-hour workshop on Wednesday evening from 6-8 pm EST at the Fire Commission Office.

Lead Instructor: David Leo, Kentucky Department of Environmental Protection

514 SLICE/RS

This class will provide a firsthand look at the UL/NIST Modern Fire Behavior/Dynamics studies and serve to educate students how they can be delivered and instituted in their fire departments. It is our hope that by compiling the best lessons learned from the fire dynamics research, fire departments will be able to adjust their policies, tactics and training to create a safer environment for the fire service as well as the people we serve in our communities. The shared science, research and best practices are another tool for your toolbox! Go home to your department with a renewed outlook and with a healthy knowledge of the Principles of Modern Fire Attack: SLICE-RS.

This 1-day course will be offered Sunday.

Lead Instructor: Doug Hurt, State Fire Rescue Training Area 15

515 Fill the Ranks: Volunteer Recruitment and Retention

The need for volunteers is ever increasing. From filling the ranks of fully volunteer departments to providing trained staff for career departments, volunteers are a hot commodity. Insurance, OSHA, NIOSH and other entities place requirements for training and operations on the volunteer. This program will discuss effective volunteer recruiting tools, training concerns, junior fire programs and methods to absorb the high costs. Scholarship programs have proven to be an effective tool in placing response ready volunteers in stations. How to start a scholarship program, fund it and the students to recruit will be discussed. We will include programs for the volunteer that still wants to be involved but may not be physically able to meet the rigorous needs of firefighting or EMS.

Since 2014 the instructor has been successfully recruiting volunteers for the fire service of Northern Kentucky. He currently serves as a Kentucky Director of the National Volunteer Fire Council and the as the Kentucky Representative in NFPA Public Education Network.

This 1-day course will be offered Friday.

Lead Instructor: Greg Schultz, Alexandria Fire Department, NVFC, and NFPA Public Education Network

516 Leading from the Front: Fire in the Great Smoky Mountains

The Great Smoky Mountains wildfires of November 2016 were a complex series of wildfires that devastated the region of Pigeon Forge and Gatlinburg. These fires are one of the largest natural disasters in the history of Tennessee, claiming at least 14 lives, injuring more than 100, consuming in excess of 16,000 acres, displacing 14,000 residents and tourists, and damaging or destroying over 2,000 buildings.

Chief Tony Watson will facilitate an in depth discussion concerning command and control, tactical considerations and lessons learned during the recent Smoky Mountain area fire storms. Operational difficulties, incident mitigation, and personal lessons learned will be explored and reviewed with an emphasis on instantaneous decision making and resource management.

This 4 hour course will be offered Friday and repeated Saturday.

Lead Instructor: Tony Watson, Pigeon Forge (TN) Fire Department

LIVE FIRE Course Competency Validation Form

Required for students participating in LIVE FIRE training

The 2012 edition of NFPA Standard 1403 requires that: "Students participating in a live fire training evolution who have received the required minimum training from other than the authority having jurisdiction shall not be permitted to participate in any live fire training evolution without first presenting prior written evidence of having successfully completed the prescribed minimum training to the level specified in 4.3.1."

NFPA 1403 requires "student prerequisites" to permit participation in live fire training evolutions. These prerequisites are:

<u>TOPIC</u>	<u>Chief Officer (initials)</u>	<u>TOPIC</u>	<u>Chief Officer (initials)</u>
a. Safety	_____	g. Water Supply	_____
b. Fire Behavior	_____	h. Ventilation	_____
c. Portable Extinguishers	_____	i. Forcible Entry	_____
d. Personal Prot. Equip.	_____	j. Building Construction	_____
e. Ladders	_____	k. Fire hose, appliances, & streams	_____
f. Overhaul	_____		

The Chief Officer of _____ Fire Department
authorizes that _____ has completed
the prerequisites and may participate in the live fire training evolutions present by SFRT.

You must be at least 18 years of age and a member of a Fire Department or an Industrial Fire Brigade recognized by the Kentucky Fire Commission to participate in LIVE FIRE delivered by State Fire Rescue Training. ID's will be checked by SFRT instructors before allowing students to participate in the LIVE FIRE training.

All Personal Protective Equipment (PPE) of the above referenced student is less than ten (10) years from the date of manufacture.

SFRT requires that all students must be compliant with OSHA 29 CFR 1910.134:

Facepiece seal protection:

"1910.134(g)(1)(i) -The employer shall not permit respirators with tight-fitting facepieces to be worn by employees who have: **1910.134(g)(1)(i)(A)** - Facial hair that comes between the sealing surface of the facepiece and the face or that interferes with valve function;" (hair growth between the skin and the facepiece sealing surface, such as stubble beard growth, beard, mustache or sideburns which cross the respirator sealing surface)

Signature of Chief Officer: _____

This form must accompany any registration form for LIVE FIRE training courses.

(DUPLICATE THIS FORM AS NEEDED – PLEASE COMPLETE ALL BLANKS)

**2018 KY State Fire School
Vendor Information
Lexington, KY
June 7-10, 2018**

Date: February 23rd, 2018
To: All Vendors
From: Marc Henderson, KFA Vendor Specialist
Re: 89th Annual State Fire School

Hello, I wanted to take moment and introduce myself as the new KFA Vendor Specialist as Therese has stepped down from the position. I hope to be able to pick up where she left off and be able to continue the great service she has provided everyone over the last few years.

The 89th Annual KY State Fire School is rapidly approaching and we are working on growing the school and we appreciate all your support in making the school great. The dates for the school are June 7-10 with the **Vendor Show being held Friday June 8th from 4:30pm to 8:00pm and Saturday June 9th from 10:00am until 2:00pm**. Enclosed is the pricing for both booths and floor spaces and we have lowered the prices in an effort to grow the show and make it more affordable for vendors to join in. Booth spaces will again be 10X10, draped and include a 6ft table and 2 chairs. Floor spaces have been changed/updated and do include 1 6ft table and 2 chairs. If you have any questions on the floor space please contact me.

We are planning on holding the 3rd Annual Human Truck Pull again this year and the event will take place during the Vendor Show on Friday evening in the hall. We are working on ideas to get the crowds into the vendor hall and if you have any special promotions or ideas please let me know.

KFA Memberships will be processed directly by the KFA and will not be in the vendor packets again this year. If you are a sustaining member and you are current with your dues by March 31st, you will be eligible for the \$100 discount on your booth/floor space.

At this time we are looking at continuing the floor plan that has been used the last few years. If you have been with us before we will attempt to keep you in the same location if feasible. We will reviewing the layout as registrations start coming in so please register early as we will utilize the space in the vendor hall as best we can.

If you need other services: electricity, internet, extra table, etc. I have will have the order form for LEXPO available for everyone.

I look forward to working with everyone and welcome any comments/ideas on growing the show. You can reach me on my cell phone at 270-499-1602.

Thank you!!

**THIS DOCUMENT WILL BE REQUIRED ALONG
WITH A REGISTRATION FORM**

**2018 KENTUCKY FIRE SCHOOL TRUCK PULL RELEASE AND WAIVER OF
LIABILITY, ASSUMPTION OF RISK, AND INDEMNITY (“AGREEMENT”)**

In consideration of participating in the Kentucky State Fire School Truck Pull. I represent that I understand the nature of the Fire Truck Pull event and that I am qualified, in good health, and in proper physical condition to participate in such activity. I acknowledge that if I believe event conditions are unsafe, I will immediately discontinue participation in the activity. I fully understand that the Kentucky State Fire School Fire Truck Pull event involves risk of serious bodily injury, including permanent disability, paralysis and death, which may be caused by my own actions, or inactions, those of others participating in the event, the conditions in which the event takes place, or the negligence of the “releasees” named below; and that there may be other risks either not known to me or not readily foreseeable at this time; and I fully accept and assume all such risks and all responsibility for losses, costs, and damages I incur as a result of my participation in the activity. I hereby release, discharge, and covenant not to sue the Kentucky Firefighter’s Association, and the Kentucky Fire Commission, its respective administrators, directors, agents, officers, volunteers, and employees, other participants, and sponsors, advertisers, and, if applicable, owners and lessors of premises on which the activity takes place, (each considered one of the “RELEASEES” herein) from all liability, claims, demands, losses, or damages on my account caused or alleged to be caused in whole or in part by the negligence of the “Releasees” or otherwise, including negligent rescue operations; and I further agree that if, despite this release, waiver of liability, and assumption of risk I, or anyone on my behalf, makes a claim against any of the Releasees, I will indemnify, save, and hold harmless each of the Releasees from any loss, liability, damage, or cost which any may incur as the result of such claim. I have read this RELEASE AND WAIVER OF LIABILITY, ASSUMPTION OF RISK, AND INDEMNITY AGREEMENT, understand that I have given up substantial rights by signing it and have signed it freely and without any inducement or assurance of any nature and intend it be a complete and unconditional release of all liability to the greatest extent allowed by law and agree that if any portion of this agreement is held to be invalid the balance, notwithstanding, shall continue in full force and effect. I am also granting my permission to the Kentucky State Fire School to use my likeness, name, voice and words in television, radio, film, newspapers, magazines and other media, and in any form, for the purpose of advertising or communicating the purpose and activities.
